

Vineyard Tour

Special highlight of this tour is the guided cru wine tasting directly in the vineyards

THE TOUR

The tour is comprised of a guided visit to three completely different terroir of Brolio with discussions of our estate, our soils and current research projects. It begins at the wine shop where you will meet your guide and depart for the vineyards. On the way back to the winery, we will stop at one of our olive groves for a brief introduction to the world of Extra Virgin Olive Oil (EVOO). The second part of the tour will be a visit to our ultra-modern fermentation facility followed by our barrel-ageing room to understand our wine production process. The tour will end with a wine tasting of our Cru wines and our certified Extra Virgin Olive Oil. The unique aspect of this tour is that the wine tasting will be outside in the vineyards, not offered on any other visit. You will be able to taste our extraordinary single vineyard Cru wines which truly represent the estate, allowing you to immediately experience Brolio terroirs and how they translate into the wine.
